

Kinek Puts You in Charge

Shopping online is great but getting your parcel can be a real hassle. Most couriers deliver during the day, hoping that you'll be home to answer the door. If you're not there, deliveries are often left unprotected on your doorstep or returned to courier depots.

Your purchases are important. You want them to be secure and you don't want the hassle of going out of your way to retrieve them. Getting your online purchases should be easier than buying them in person.

Why risk leaving your parcels unattended or driving miles out of your way when you can send your items to a location near your home or workplace?

Kinek lets you shop with any online vendor and ship your order to a location of your choice. Our alternative delivery network lets you send your parcel to a participating business that will notify you when it arrives. Pharmacies, convenience stores, and retail outlets have all joined the Kinek Network.

How it Works

- 1 Go to **www.kinek.com** and search for a Kinek Point.
- 2 Sign up for a **free** account and TAG number.
- 3 Go shopping on your favorite websites and follow the easy **step-by-step** instructions for filling out the retailer's shipping form.
- 4 Wait for your parcel to arrive (we'll **email** you as soon as it does). For a small fee, you can pick up your parcel at a Kinek Point of your choosing.

The Service You've Been Waiting For

Kinek is the convenient alternative to traditional deliveries. Below are just some of the reasons online shoppers are using Kinek.

Security

Kinek Points are trusted businesses within your community. From the pharmacy where you have your prescriptions filled to the convenience store you visit when you are out of milk, many local businesses are joining the Kinek Network.

Kinek locations are places you already shop at and trust. These locations will keep your parcel safe and secure until you are ready to retrieve it. With Kinek, you don't have to worry that your parcel will be left out on your doorstep.

Convenience

Would you really rather drive across town when you could just walk around the corner? Courier depots are often located miles out of your way and are closed during the hours which best suit your schedule. Kinek Points can be found throughout the community in a variety of convenient locations. Many have hours of operation that extend past those offered by courier companies.

Green Your Deliveries

Shopping online and sending your deliveries to a Kinek Point doesn't just save you time; it can help reduce your carbon footprint. Here are just three ways that using Kinek and shopping online can help green your deliveries:

- 1 With online shopping, you don't have to drive around town or spend time in an idling car.
- 2 Only the items you decide to purchase are shipped from the manufacturer (as opposed to the overstocking and returning of items that traditional retailers deal with).
- 3 When people in and around your neighborhood ship to a Kinek Point, they reduce the number of miles delivery trucks have to travel. The result is less traffic congestion and a reduction in harmful emissions in the area you call home.
